CHÂTEAU VILLERAMBERT JULIEN EXCELLENCE

The vineyard of Château Villerambert stretches over 100 hectares in AOP Minervois. Gallo-Roman traces which were found around the property lead to believe that the first vines were planted in the 4th century AD.

According to archives, Château Villerambert already owned a vineyard in 1231. Since 1858, 6 generations of the Julien family have successfully run the property, which is part of Vignobles Bonfils since 2014.

TERROIR

The vineyard is composed of a mosaic of terroirs, it gives mineral characteristics to the wines. Planted between 190 and 260m above sea level, the different climate brings freshness and complexity to the wines.

We count 11 different terroirs at Villerambert: Red earth, flint clay and limestone, marl, clay and limestone magnesia, clay and limestone, marble, lime sandstone, graves clay and limestone, clay, sand and schist.

VINIFICATION

The grapes are night harvested, lightly crushed and passed into vats for a maceration period of 3 weeks, and up to 6 weeks for the most mature Syrah and Grenache.

Made in the traditional manner, with the grape varieties being vinified separately, at 28° C in concrete tanks with daily pumping over and racking. The wine is aired and the lees regularly stirred during the whole post fermentation maceration period for greater richness and to soften the tannins.

TASTING NOTES

This Minervois delights the eye with its glimmering ruby robe. Complex fruity notes of strawberry, raspberry and blackberry lifted by a hint of spice and oak reveal this to be a wine of immense character.

SOMMELIER'S ADVICE

Wine & food pairing: braised beef with tomatoes and red wine, leg of lamb with cranberry sauce, duck breast with boletus, mushroom fricassee, ripened cheese.

Serving temperature: 16-18 °C

Aging potential: Up to → 5 ans
